Shashwat Tripathi

Full Stack Engineer - Divisions Maintenance Group
me@shashwat.io
MO: 7860034797

Driving seamless application excellence in cloud environments, leveraging diverse programming prowess, database expertise, and scripting finesse, with a total industry experience of 10 years.

WORK EXPERIENCES

Full Stack Engineer - DMG (Nov 2023 to present)

- Development experience in Spring Boot and .NET Core microservices with data models defined using protobug communicating over gRPC.
- Data pipelines using AWS Glue and Airflow.
- Data warehousing in Snowflake
- Setup backstage and configure the same for kubernetes based deployment
- Migrate from direct ArgoCD based deployment to Backstage.
- I love here

Full Stack Engineer - Sabre (Feb 2022 to Oct 2023)

- Experience on AWS Glue, Pandas, pyspark and Airflow.
- Development experience in Spring Boot and .NET Core microservices with data models defined using protobug communicating over gRPC.
- Setup build and deployment automation using Jenkins and Bazel.
- Design architecture and write technical documentation for different flows.
- Database schema design and management using Liquibase.
- Automate deployment of infrastructure and services in an isolated multi-tenant architecture.

Cloud and Software Architect - Independent Contracts (June 2019 to Dec 2022)

- Working with multiple firms in multiple tech stacks including but not limited to.
    - Programming and Cloud Architecture.
    - Setup/Changes in Cloud Architecture for ETL processes.
    - DevOps (Terraform, Jenkins, Bazel, Ansible in AWS/GCP)

Antuit India Pvt Ltd (Jan 2018 to May 2019)

- Using pandas for data manipulation where source might be csv or json.
- Using Chef and Ansible as a configuration tool to manage Linux machines for Big Data.
- Python Scripting/REST APIs development/review.
- Using Terraform and Packer as orchestration tools to manage infrastructure in Azure and AWS.
- Several automation for configuring Hadoop Cluster in Azure and AWS.
- Data pipeline setup.

Singsys Pvt Ltd as Solution Architect of ERP Department (Sep 2017 - Jan 2018)

- Managed a team of more than 20 members.
- Using Packer and Ansible to create AWS images (AMI) and manage infrastructure using Terraform.

- Job roles included client architecture, designing architecture of ERP systems (Angular & Java), finding and designing technical solutions of complex requirements, and setup Tests. Builds and Deployments.
- Working on the Agile development team using Jira, Github and Jenkins.

Singsys Technologies Pte Ltd (Singapore) as Advanced Software Engineer (Jan 2017 - Aug 2017)

- Worked as a team lead in a major project in Singtel. Job roles included code review, design application architecture and setup of CICD. Used Octopus and TeamCity to run tests/builds and deploy on AWS EC2 instances.

Singsys Pvt Ltd Lucknow as Solution Architect Lucknow (July 2012 - Dec 2016)

- Joined as a .NET Engineer and later promoted to Solution Architect through internal selection process.
- Took care of enforcing Coding Standards, Design Patterns, use of Git and writing highly testable codes.
- Managing servers (Linux/Windows) located in multiple data centers and on the Cloud.
- Experience in setting up CICD pipelines in various tools like Jenkins, CircleCI, Gitlab, Bitbucket and Travis (Including setup of inhouse hosted Jenkins and Gitlab)

PROFESSIONAL SKILLS

Programming, Scripting and other Languages:
C#, Java, NodeJs, Shell, Python, HTML/CSS/JavaScript

Frameworks, Runtime Environments and Development Tools:
AWS CLI, .NET 4.5 & Core (backend), ReactJS

Configuration Management and DevOps Tools:
Docker, Ansible, Vagrant, Packer, Terraform, Jenkin, Chef, Bitbucket Pipelines, Azure DevOps and other cloud based CICD tools.

Cloud Computing:
AWS,, Azure, GCP, Containerization and Kubernetes.

Database Servers:
SQL Server, Postgres, MySQL, MongoDB, SQLite (file based)

Middlewares:
Apache, Nginx, IIS

Systems:
Linux (CentOS, Ubuntu, Debian), and Windows.

Soft Skills:
Project Management, Metrics Reviews, Risk Management, Process Management, Change Management, Release Management, Incident and Problem Management, Planning and coordination of System Integration Tests and UATs, Confluence, JIRA. Bitbucket, Github, Gitlab.

AWARDS AND ACHIEVEMENTS

- Employee of The Year Award in Singsys for the year 2016.
- Most Intelligent Person Award (elected using voting) in Singsys for the year 2016.

- Received Leadership Development Program at **IIM Lucknow**.
- Received High Impact Leadership Training by Mr. Shiv Khera.
- Good reputation on StackOverflow with 7k points, 7 Gold, 53 Silver and 86 Bronze badges including moderator rights.
- Owner and developer of myIGNOU website and Android Application. Website is live at www.myignou.com and the application is available on playstore at https://goforgold.page.link/myignou. Also set up CICD pipelines for Android applications using Bitbucket pipelines later moved to CircleCI.

EDUCATION

Lovely Professional University
Master of Computer Application

Indira Gandhi National Open University
Bachelor of Computer Application

NICE COLLEGE Bareilly (MS IT Academy)
Advance Diploma in Software Engineering - 1 Year (2008-09)
